Discover the Benefits of Choosing an Epicor® Authorized or Certified Software Partner

Protecting your technology investment is vital when selecting an enterprise software partner. Not only will your organization get better results, but choosing an Epicor Authorized or Certified Partner can also help you stay compliant with your Epicor contract.

Epicor Authorized and Certified Partners:

▶ Have completed the Epicor Certification Program for the highest level of product knowledge
▶ Invest in their customers' success with Epicor solutions
▶ Are fully trained on the most recent product releases
▶ Have direct relationships with Epicor product development, services, and support staff
▶ Are informed about the latest product roadmaps, promotions, and incentives
▶ Adhere to regulations set by Epicor for the protection of your business

The Epicor Certification Program defines learning standards, trains participants on Epicor applications, and tests their mastery of each application upon completion. Epicor certifies our Partners annually, so you can expect them to provide you with the best possible consulting experience and the most up-to-date information.
